

## **Revelation and Response**

Who a person reveals themselves to be determines how we will relate to them.

When God reveals Himself, we must do something with it

There are two major responses to God's revelation:

1. Rejection
2. Worship

There is a difference between God being glorified and God being worshipped.

Worship is not qualified by whether or not it is given, but rather by whether or not it is accepted.

Beware of adopting belief outside the context of worship.

The revelation of God requires and inspires our heartfelt worship. If not, we will waste it and insult God with our use of it.
