

# The World in Us . . .

## Desire of the Flesh

Definition: *a selfish outlook that pursues its own ends*

No one successfully “counts the cost” while clinging to the desires of the flesh.

## Desire of the Eyes

Definition: *everything that entices the eyes*

No amount of fulfillment in our eye will ever satiate the void of a soul.

## Pride of Life

Definition: *self-glorifying, empty talking, or hypocritical*

The way you fight the Pride of Life is by determining that every aspect of your life is held out to God with an open hand.
